CLASS A

LOT # Description

- 1 **Open Ranch Sorting:** Two person team. Both start behind barrier. Maximum one and a half (1 ½) minute time limit. Once five (5) times have been established, slowest time will dictate maximum time allowed. Flag up to indicate ready, flag down and time starts when 1st rider crosses start/foul line. As time starts announcer calls out a random number 0 – 9. Contestants must then sort the cattle into the opposite pen, starting with the number called, increasing in sequence. Time stops when the last cow crosses the start/foul line. If time has stopped and contestants have only sorted part of the herd (with no fouls) that time is recorded along with the number of cattle sorted. Top team is the best time, who sorted all cattle clean without fouls. If no team sorts all the cattle then the teams who sorted the most cattle with no fouls with the fastest time are placed accordingly.
